Parts for
KTM
HUSQVARVA
GASGAS

PARTS FOR KTM / HUSQVARNA / GASGAS

Oil Feeler Sleeve (OFS)

Prevent dirt and mud from entering your oil tank by shielding the oil filler neck. This product is made of TPU (semi-flexible polyurethane).

FITMENT

- All ENDURO TPI models (2018-2023)
- All ENDURO TBI models (EXC/XCW/TE/EC) 2024 onwards

PART NUMBER

- TR-EU-OFS-BLK
- TR-EU-OFS-RD

PARTS FOR KTM / HUSQVARNA / GASGAS

Chain slack gauge block V3

Our unique design takes the guesswork out of adjusting your bike's drive chain slack. Easy to use tool, allows perfect slack adjustment every time.

FITMENT

- All big ENDURO, XC and MX models (125-530) from 2011 to 2023 including Husaberg 2011 onwards

PART NUMBER

- TR-CBLK-KTM-BLK
- TR-CBLK-KTM-RD
- TR-CBLK-KTM-ORG

PARTS FOR KTM / HUSQVARNA / GASGAS

Radiator cap tool

Allow easy opening of the radiator plastic cap on Tbi models. Optional white custom lettering.

FITMENT

- All MX models (125-450) 2023 onwards
- All XC models 2023 onwards
- All ENDURO models 2024 onwards

PART NUMBER

- TR-EU-KTM001
- ▬ TR-EU-KTM001-CL (with custom lettering)

PARTS FOR KTM / HUSQVARNA / GASGAS

Radiator hose protector

Protects that vulnerable left side lower radiator hose from abrasion hole caused by contact with the top bolt of the power valve cover.

Easy to install - just slide over and use the zip tie to keep it in place. No need to take off radiator hose or to drain coolant.

FITMENT

- 250/300 EXC/XCW/TE/EC ENDURO models from 2017 onwards

PART NUMBER

- TR-CBLK-KTM-BLK
- TR-CBLK-KTM-RD

PARTS FOR KTM / HUSQVARNA / GASGAS

Keyhole cover

Flexible keyhole cover eliminates water (rain / washing) entering the steering stem which can lead to rust and damage to the bearing.

FITMENT

- All ENDURO models from 2010 onwards

PART NUMBER

- TR-EU-KTM003-BLK
- TR-EU-KTM003-RD

PARTS FOR KTM / HUSQVARNA / GASGAS

Braktec emergency kit

Allows easy on-trail repair of the fragile Braktec perch. A must-have in every Husqvarna / GasGas rider tool set.

FITMENT

- All ENDURO Husqvarna and GasGas models with Braktec components

PART NUMBER

- TR-EU-BRKTC001

Parts for BETA

Photo by Omri Gutman / Riders for riders

PARTS FOR BETA

Map switch relocation block

Allows the removal of the top fuel tank cover by relocating the map switch to the handlebar for on-the-fly map changing.

FITMENT

- RR 2 stroke models from 2020 onwards
- RE (Racing) 2 stroke models from 2020 onwards

PART NUMBER

- TR-EU-RR001

PARTS FOR BETA

Spark plug case

Keep an extra spark plug in a protective case that latches onto the battery's band, ready to use when necessary.

FITMENT

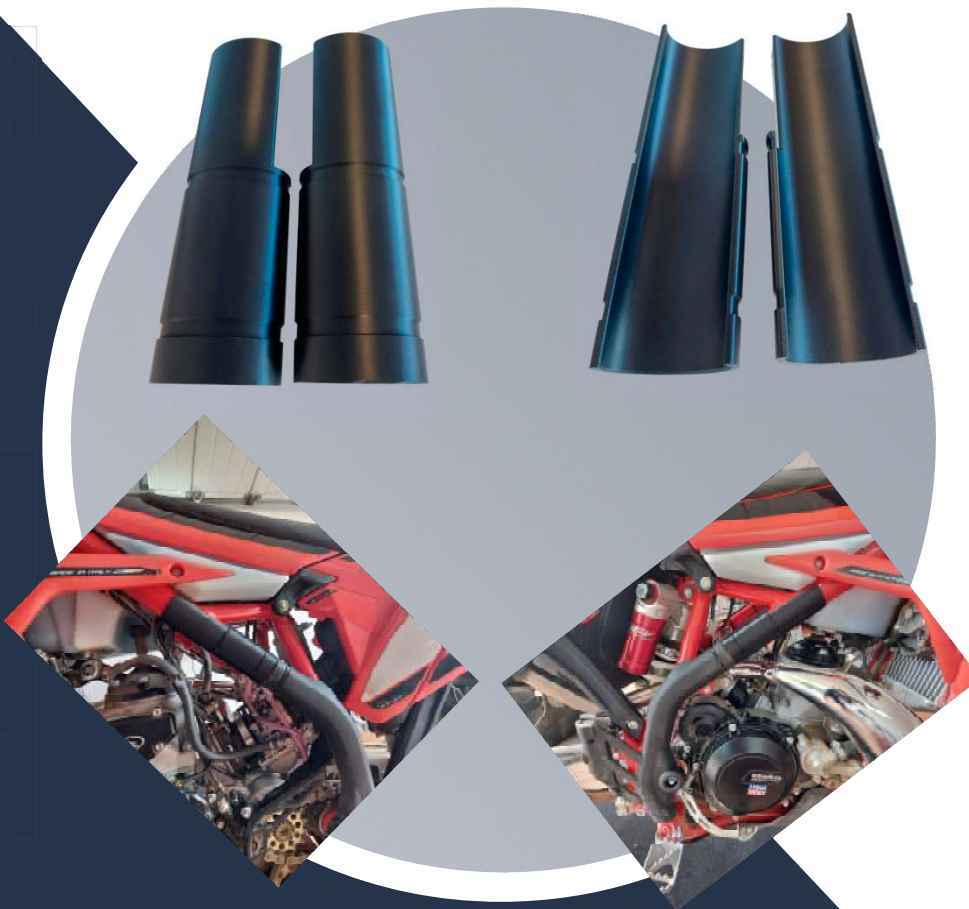

- RR and RE 2 stroke
- X-trainer

PART NUMBER

- TR-EU-RR002 (RR/RE models)
- TR-EU-XT002 (low profile for Xtrainer)

PARTS FOR BETA

Frame guards extension

Extends the stock extension on the Xtrainer frame, for extra protection.

FITMENT

- All Xtrainer models

PART NUMBER

- TR-EU-XT001

PARTS FOR BETA

Fuel cap seal

High quality precision made TPU seal, eliminating fuel leaks due to deformed OEM seal.

FITMENT

- All RR/RE/RS and Xtrainer models

PART NUMBER

- TR-EU-RR003-BL
- TR-EU-RR003-RD

PARTS FOR BETA

Keyhole cover

Flexible keyhole cover eliminates water (rain / washing) entering the steering stem which can lead to rust and damage to the bearing.

FITMENT

- All ENDURO models from 2010 onwards

PART NUMBER

- TR-EU-KTM003-BLK (RR/RE/RS models)
- TR-EU-KTM003-RD (RR/RE/RS models)
- TR-EU-XT003-BL (Xtrainer models)
- TR-EU-XT003-RD (Xtrainer models)

PARTS FOR BETA

Fork slider protectors

Protects your expensive fork tube from wear.

FITMENT

- All KYB forks (Racing models)
- All ZF forks (RR/RE models)

PART NUMBER

- TR-EU-KYB001-BL (KYB fork)
- TR-EU-KYB001-RD (KYB fork)
- TR-EU-ZF001-BL (ZF fork)
- TR-EU-ZF001-RD (ZF fork)

PARTS FOR BETA

Chain slack gauge V5

Our unique design takes the guesswork out of adjusting your bikes drive chain slack. Easy to use tool, allows perfect slack every time.

FITMENT

- All RR/RS/RE/RX/XT models

PART NUMBER

- TR-EU-RR004-BLK
- TR-EU-RR004-RD

General Parts

GENERAL PARTS

GoPro™ double curved helmet mount

Unlike any other mount, this one is double-concave to fit most modern helmets with at least 90% contact area for a secure mount

FITMENT

- Most modern helmets

PART NUMBER

- TR-EU-GP001

GENERAL PARTS

GoPro™ double curved **MAGNETIC** helmet mount

When riding in forests or in the bush, where the camera or helmet light can catch on a branch, this mount makes a BIG difference in rider safety. On impact it will disconnect and will not transfer the force of the impact into the rider's neck. Easy to place back accurately and securely with only one hand. Its base is double-concaved to fit most modern helmets with more than 90% contact area for its built-in adhesive.

FITMENT

- Most modern helmets

PART NUMBER

- TR-EU-GP002

GENERAL PARTS

Keihin PWK float adjustment stand

This stand let you adjust easily the float level on the Keihin PWK carburetor.

It will hold the carburetor in precisely 60 degree which is the recommended position for float adjustment and at the same time to easily view and adjust the float with the 7mm and 8mm supplied gauges.

FITMENT

- All modern Keihin PWK

PART NUMBER

- TR-EU-PWK001

GENERAL PARTS

Chain Tangle Eliminator (CTE)

The ring installed between the rear sprocket and the wheel spokes, will prevent a complete slack of the chain if fall which in turn will prevent the chain from jamming between the front sprocket and the engine block / chain slider.

Patent pending design allow easy and quick installation without removing the sprocket or the wheel.

FITMENT

- * All KTM Enduro / MX / XC model from 125 to 530
- * All Beta RR / RE / RS models
- * All Sherco models with additional adapters kit (part No TR-EU-CTESHER)

PART NUMBER

- TR-EU-CTEKTM-BLK

GENERAL PARTS

DV 3.2 tools pad

- Made of semi-soft TPU for easy fitting and impact protection
- Fits KTM and Beta tool sets*
- Integrated magnets to hold sockets when the pad is open
- Six fastening nuts integrated into the cover for adding modules such as a GPS case, timekeeping device, watch, etc.

*To use the KTM and Beta T-handle, it needs to be stripped of the plastic, and the short side must be shortened to fit inside the pad.

** Does not includes tools

FITMENT & Part number

- Every dirt bike on the market with 1-1/8" handlebar "pro taper" style (no reinforcing rod)

Will NOT fit PHDS and Mako 360 mounts

PART NUMBER

TR-EU-DV32-BLK, tools pad only, no tolos

TR-EU-DV32TLS-BLK, tools pad with tools kit included

GENERAL PARTS

Garmin Etrex mount

The Garmin Etrex handlebar mount offers the ideal GPS solution for both racers and adventure riders.

- Easily installs on 1-1/8" handlebars with stainless steel clamp or zip tie.
- Made from TPU, a material known for its durability and chemical resistance.
- Provides convenient access to GPS buttons.
- Features a clam shell design for effortless insertion and removal of the GPS unit.
- Compatible with Garmin Etrex GPS models 20/20x/22x/30/30x/32x.
- Compatible with bolts pattern of the TwoRide-EU DV tools pad

FITMENT & PART NUMBER

- Garmin Etrex mount for 1-1/8" handlebar "TR-EU-ETRX01-BLK"
- Garmin Etrex mount for KTM/Husky/GasGas 2024-2025 "bridge" type handlebar mounts "TR-EU-ETRX02-BLK"
- Garmin Etrex mount for Beta 2013-2024 "bridge" type handlebar mounts "TR-EU-ETRX01-BLK"

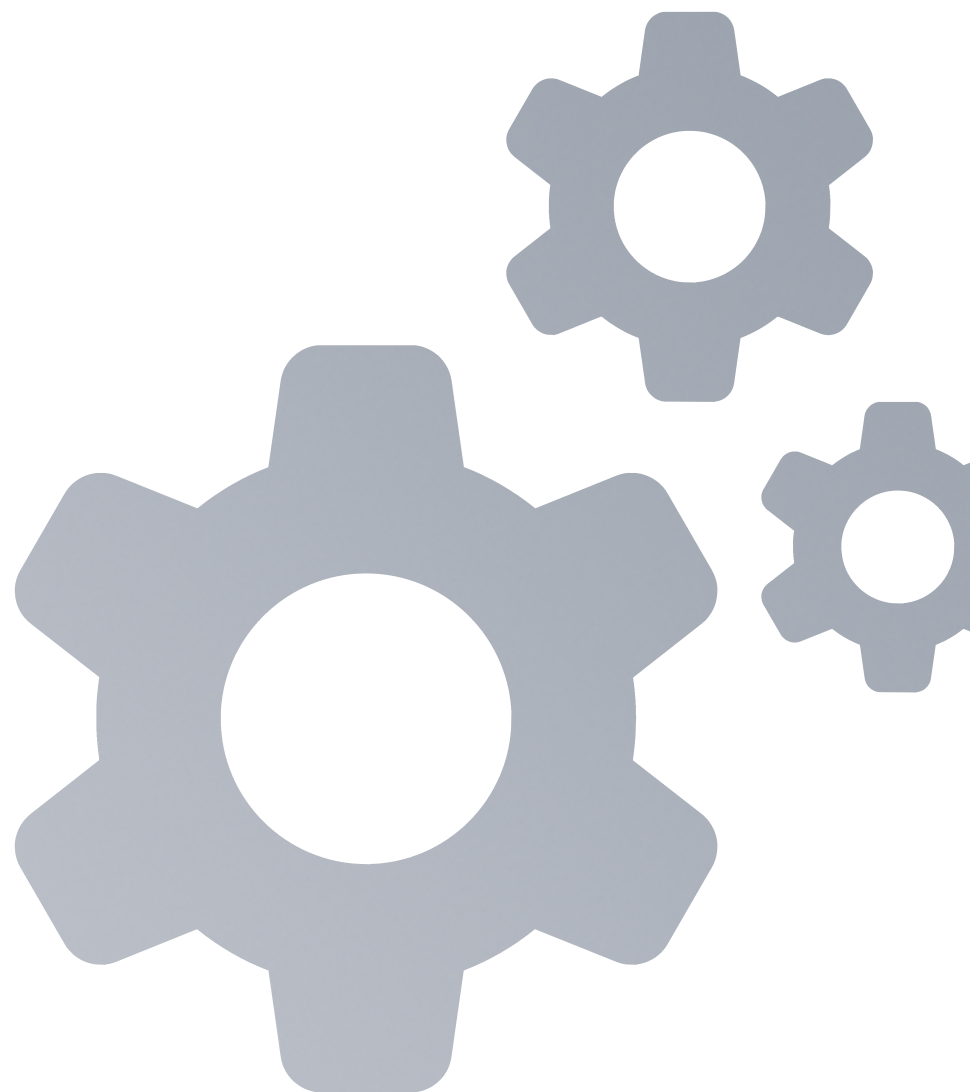

Something more...

At TwoRide, we are passionate about riding, racing, and outdoor activities. We create parts that we need and use ourselves, based on our own experiences and challenges. However, we know that our range of products may not cover all the needs and preferences of our customers. That's why we welcome your feedback and suggestions. If you are looking for something that we don't have, for a model or brand that we don't support, let us know.

We use 3D printing technology to produce our parts with the best quality materials and the most accurate printers. This allows us to adjust and customize our designs according to our customers' needs (colors, lettering, etc). If you want something special, let us know.

Ride hard, be safe!
